PROFESSIONAL SUMMARY

SAP UI5/Fiori Developer with 3.5 years of experience in developing enterprise-grade SAP applications using SAPUI5, Fiori Elements, and OData. Skilled in front-end performance optimization, debugging, and delivering clean, user-centric UI designs aligned with business requirements and enhance user experience.

TECHNICAL SKILLS

- **Frontend:** SAPUI5, Fiori Elements, XML Views, HTML5, CSS, JavaScript
- **Backend Integration:** OData CRUD (GET/POST/PUT/DELETE), SAP NetWeaver Gateway
- **Tools:** SAP Web IDE, Eclipse, Visual Studio Code, Postman, Git (basic), GitHub, Fiori Launchpad Configuration.
- **Concepts:** MVC Architecture, Smart Controls, Responsive UI, UX Design

WORK EXPERIENCE

2022 - Present
Accenture

Pacakaged App Development Analyst

2022 - Present

Project : MODEC

Currently, Working on the **MODEC** project, a global offshore energy solutions provider, responsible for digitalizing internal business processes through SAP Fiori applications integrated with ECC Systems.

Key Contributions:

- Designed and deployed SAPUI5 apps integrated with ECC systems for user access management, transaction code approvals, and timesheet management.
- Developed custom applications: User Access Request & Approval, Tcode Access Request & Approval, and Customized Sofec Timesheet.
- Activated and configured standard SAP Fiori apps including My Inbox and Approve Service Entry Sheets, handling launchpad setup, catalog/tile assignment, and workflow integration.
- Enhanced timesheet functionalities to meet Sofec-specific business needs using Smart Tables and dynamic fragments.
- Collaborated with ABAP teams to design and consume OData services (CRUD operations).

- Supported the end-to-end lifecycle of apps including requirement analysis, development, deployment, UAT support, and post-go-live maintenance.
- Applied best practices in responsive UI, MVC architecture, and performance debugging for seamless UX.

Education

2017-2021

Bhoj reddy engineering
college
